

**January 2012**

**SPRINGFIELD LAKE SHORE IMPROVEMENT ASSOCIATION  
(SLSIA)**

**2010-2011 Property Sales Report**

The SLSIA market based report for property sales at Lake Springfield has been updated for 2010-2011. The previous report, dated August 2010, covered the time frame 2004-2009. This information is provided for information purposes only for members of the SLSIA. There are many factors to consider when comparing sales and tax assessments of individual properties. In addition to the typical selling components of location, condition and price the last two years in the real estate industry have seen significant economic conditions affect the local real estate market. These conditions included increased inventory of properties for sale, increased competition from new construction, stricter borrowing guidelines for mortgage lenders, and stricter analysis demands on appraisers. All of these factors have affected sale prices not only at Lake Springfield but the general Springfield area. Despite all these conditions, the property sales at Lake Springfield have remained stable in number of properties sold.

The following information has been accumulated from various sources including the Capital Area Association of Realtors Multiple Information Service, The CWLP Lake Services Department, and The Sangamon County Tax Records. The information gathered is presented as accurately as possible, however, is not guaranteed to be perfect.

**Summary: Recap from the 2004-2009 report**

2004, 22 properties sold, sales volume \$6,544,400, ave. sale price \$297,472
